

Lumens helps multiple organizations to stay connected with their colleagues, students, and parish members that can't meet in one location. There are several available options to support any type of A/V platform. See how Lumens can help you!

Videoconference with friends, family and colleagues with the best video image quality.

We offer USB with HDMI cameras that can connect easily with a computer monitor or TV panel.

When e-learning options are available, everyone learns from any location!

Livestream and record lectures or demonstrations for any type of course work with Full HD PTZ cameras and a LC200 CaptureVision System.

Livestream and record weekly house of worship services or special occasions.

See if a 4K or Full HD PTZ IP camera and LC200 CaptureVision System is the right bundle for you.
